To parents considering Michael Parker for SAT tutoring,

I would like to share Michael's work with our son Ryan. Ryan is an excellent high school student with a strong academic background. He took the SAT a couple of times but didn't perform to his high school grades. Michael tutored Ryan over a ten week period. He was always prepared, always on time and planned out his time and work with Ryan well. He has a calm demeanor that was very effective. The results were very strong. Ryan was able to take his Math score up 70 points and his overall SAT score nearly 200 points. This puts Ryan in an excellent position to be considered strongly by the colleges he wants to apply to.

We would highly recommend Michael to anyone who is considering his services and appreciate what he has done to help Ryan through the process.

Best,

A handwritten signature in black ink that reads 'Chip Barker'. The signature is written in a cursive, flowing style.
